

ALGEBRA SEMINAR

Simplicial homotopy groups, II

Vasily Dolgushev
Temple University

ABSTRACT: This is the continuation of the semester long series on simplicial homotopy theory. In this talk, we will discuss various properties of simplicial homotopy groups. In particular, we will construct the long exact sequence of a fibration.

Many presentations in this series are based on the book “*Simplicial Homotopy Theory*” by P.G. Goerss and J.F. Jardine.

MONDAY, MARCH 23, 2015
1:30 – 2:30 PM
ROOM 617, WACHMAN HALL
