*Temple's Math Club Presents...*

Reflection, Refraction & Fermat's Principle

Presented by Ahmad Sabra

a fifth year graduate student at Temple University

FRIDAY, MARCH 27, 2015

1:00PM IN WACHMAN 617

Come as we present the Fermat Principle, prove Snell's Law and answer this question: How do you construct a surface that reflects or refracts rays emitted from a source into a given target?
