Society for Undergraduate Mathematics

Presents:

Calculus everywhere: The Catenary

by Juan Gil

I plan to discuss the definition and some basic interesting properties of this famous curve that can be actually found almost everywhere, even as monumental architecture.

Thursday February 18, 2002

Wachman Hall, Room 617, 2:00pm

Graduate students are especially welcome!

Free Doughnuts and Coffee will be available from 1:40 to 2pm

in the Faculty Lounge, Room 626.
